THE QUARTERLY

—OF THE—

Washington State Normal School

ELLensburg

BULLETIN

—OF THE—

SIXTH SUMMER SESSION
AT ELLensburg

—AND THE—

SECOND SUMMER SESSION
AT CENTRALIA
SUMMER SESSIONS.
June 24 to August 2.

This year the Washington State Normal School will maintain two summer sessions, one at Ellensburg and one at Centralia. It takes full charge of the summer session which has been so successfully established at Centralia by Supt. R. B. Kellogg and former County Superintendent W. D. Bay, and undertakes, with the assistance of these efficient educators and the co-operation of the community to conduct here a strong and helpful summer school with the view of widening the usefulness of the Ellensburg State Normal School and of extending its services in a larger measure to the teachers and young people of southwestern Washington.

The chief purpose of these summer schools is to afford to teachers and other students opportunities of vacation study in Normal School lines, and they are to be conducted with the view of the largest practical benefit to all who attend their classes and also with the view of making these weeks enjoyable and inspiring to all. A summer school must be recreative and invigorating as well as educative.

FOR WHOM INTENDED.

Both schools are to be conducted with the view to serving:
1. Grade and rural teachers who desire further preparation and inspiration.
2. Those who wish to prepare for the teachers' examinations.
3. Students and teachers who wish to work toward a normal school certificate or diploma.
4. Teachers who wish practical training in special lines as primary methods, music, stories, art, hand work, plays and games, etc.

PROVISION FOR THE SUMMER SESSIONS.

As far as needed the whole equipment of the institution will be used by the summer schools; the library, the laboratories, the art and music studios, the gymnasium, the manual training and domestic science equipment will all be in service. Books from the Normal School library and apparatus and supplies from the scientific laboratories will be shipped to Centralia for use there.

A strong corps of teachers composed of heads of departments of the Normal School and other teachers specially qualified in their several lines will have charge of the work of each school.
PREPARATION FOR TEACHERS' EXAMINATIONS.
Special provision will be made for those who wish to qualify themselves for the teachers' examinations. Classes in all of the subjects required for first and second grade certificates will be formed as far as desired, and the library contains suitable material for study.

RENEWAL OF CERTIFICATES.
The law provides for the renewal of second grade certificates by attendance at an accredited summer school, provided the holder does creditable work in three subjects. The summer school at Centralia as well as the one at Ellensburg is an accredited summer school. Classes suited to this purpose may be selected from the program with the view of extending and broadening the teachers' attainments in such lines as may be desired.

THE PROGRAM.
Classes will be organized in such courses as shall be desired by a sufficient number to justify maintaining them.

Students pursuing regular courses in the school may accomplish definite portions of such courses in the summer school, and obtain appropriate credit. As the session is only six weeks in length the maximum number of credits that may be earned is eight.

Opportunities for library research, for laboratory work, and for private study will be afforded as during the other sessions, except that training school practice will not be practicable.

PRIMARY METHOD COURSES.
Special courses for primary, grade and rural school teachers in public school music; in reading, writing and story telling; in art—drawing, water color painting, weaving and other hand work; in nature study; in plays and games, and in the management of primary pupils and classes will be given.

THE MAIN PURPOSE.
The main purpose of the summer session, as of all sessions of the Normal School, is to promote among teachers the student habit and spirit. It attempts to provide at moderate cost excellent opportunities for study with competent instruction and guidance, and offers a range of subjects for free selection which is sufficiently varied to appeal to the interest of all.
THE COURSES OFFERED.

The following courses, outlined in the catalog of 1911 and modified as indicated here will be offered in the summer session:

ENGLISH—Dr. Harris.

Course I lb. A review course in English grammar and English writing intended for those wishing to prepare for the teachers' examination.

Course IIIa. American Literature.

Course IXa. History of English Literature.

Only one of these two courses will be given—the one preferred by the majority of those choosing one or the other.

Course Z. A general course in Literature having in view the requirements for first grade certificates.

LATIN AND GERMAN—Dr. Harris.

A course in Latin and one in German may be arranged, if desired by a number sufficient to justify maintaining a class.

HISTORY—Prof. Collins.

Course Va. This course is given for those who desire to secure certificates by examination.

Course Vla. Early English History. Two credits.

Course Z. Some other course may be given if a sufficient number agree in the choice of a subject.

ART AND HAND WORK—Miss Corbett.

Course Ia or IIa. Sketching of natural objects, still life, landscape composition, pencil, crayon, water colors. Two credits.

Course IIa. Elements of design and composition. Practical designs.

Course V. A short course in basketry in raffia, reed and local materials. One credit.

MANUAL TRAINING—Prof. Whitney.

Course Ia. Bench work in wood, including mechanical drawing, handling of bench tools and working out of projects.

Course Z. An advanced course suited to preparation and wishes of the students.

DOMESTIC ECONOMY—Miss Nash.

Domestic Science.

Course Ia or IIa. Elementary study of food preparation and food values. Serving. One credit.

Course II or IV. Advanced cooking and serving and home economics. One credit.

Domestic Art.

Course I or III. Plain hand and machine sewing. Making of garments, etc. One credit.

Course II or IV. Cutting and fitting of garments, etc. One credit.

PHYSICAL CULTURE AND ORAL EXPRESSION.

Prof. Whitney.

Course I. Physical training. Instruction in hygiene, gymnastics, games. One credit.

Course II. Reading from the printed page. One credit.

Course III. Oral Expression. One credit.

MATHEMATICS—Prof. Morgan.

Course Va. A review of arithmetic for those preparing for teachers' examination or for entrance to a normal school.

Course VII. Method in arithmetic. Two credits.

Courses I and II (in part). A review of algebra for those preparing for teachers' examination or for entrance to normal school. A course will be given in bookkeeping or in plane trigonometry if a sufficient number desire it.

PHYSICAL SCIENCE AND GEOGRAPHY.

Prof. Whitney.

Course Ia. A review course in general physics designed for candidates for first grade certificates by examination.

Course IVa. Commercial and industrial geography; or one credit.

Course IVb. Method in geography. One credit.

Prof. Collins.

Course IIIa. A comprehensive study of physical geography with the view of qualifying candidates for first grade certificates by examination.

BIOLOGICAL SCIENCE—Dr. Munson.

Course IVa. Cellular biology, lectures, laboratory work and reading.

Course Vla. School sanitation. One credit.

Course Z. Physiology. Intended for those who are preparing for the teachers' examination.

Domestic Economy X. A general and practical course in cooking and sewing, designed to meet the needs of rural school teachers. Special attention is given to school luncheons.

MUSIC—Miss Ensle.

Course Ia. (From Courses I and II of catalog.) Notation; sight singing in the nine common keys and five kinds of measure; ear training; frequent and infrequent intervals; major and minor scales; work to cover New Education Music Course first reader and Modern Music Series first reader. This course is designed to prepare for the examination required for the second grade certificate.

Course II. Methods of teaching primary music; rote song; rhythm, melody, voice. Beginning sight reading. Study of material to cover grades one, two and three. Biographical study of composers. One credit.

Course III. (Course VII of the catalog.) Methods of teaching. Problems throughout the grades presented. Study of material to cover all grades. Child voice. Composers. One credit.
PSYCHOLOGY AND EDUCATION.

Prof. Collins.

Course IVa. Psychology.

Miss Hoffman.
Course X. Special methods. One credit.
Course IVb. Studies of children, child life and child culture. One credit.
Course IVb. Inductive child study. One credit.
Course Xa. Plays and games; industrial work; nature study. One credit.
Course Xa. Special primary methods, stories—language, reading. One credit.

A demonstration school of children representing the first to the fourth grades inclusive will be conducted as a basis for these courses.

EXPENSES.

There is no charge for tuition. The services of the faculty, the proper use of the buildings and grounds and of the library and laboratories will be free to registered students. The regular registration fee of ten dollars, half of which is an indemnity deposit and returnable at the close of the session or upon withdrawal, is the only charge for the privileges of the summer session.

BOARD AND ROOM.

Inasmuch as a majority of the summer school students in past years have found boarding accommodation in homes, the normal club house has been used to accommodate the others. It will be open for summer school students this year under the management of Mrs. J. C. Nevens, who is favorably known to students of the year 1910-11.

The prices will be as follows:

- For table board, per week $4.00
- For a room alone, per week 1.25
- For certain choice rooms accommodating two, each person, per week 1.25
- For all other rooms, each person, per week 1.00

The club house will accommodate only fifteen with rooms but over thirty with meals.

Desirable furnished rooms in private residences within a block or two of the club house may be rented at the rate of eight to fifteen dollars per month. Usually two persons may share such rooms.

If, however, by June 1, a larger number than the club house can well accommodate shall notify the principal's office of their intention to attend the summer school, and their preference to board at the dormitory, arrangements may be made for opening it instead of the club house. The cost of room and board here would be $4.00 per week. The dormitory is new and very convenient and attractive.

SUMMER SESSION
AT CENTRALIA

Centralia is a modern city of eight thousand people, having three miles of paved streets, fifteen miles of sewer and twenty miles of cement sidewalks. Its railroad service is excellent, twenty-six passenger trains going through the city daily. It is connected with Chehalis and with the State Training School by an electric car line.

The school will be conducted in the new $125,000 high school building, one of the best school buildings in the state, whose gymnasium, library, and laboratories will be available for the use of the summer school students.

One of the strong features of the Centralia summer school has been the excellent opportunity offered for reviewing the different subjects required for any grade of teachers' certificates by examination. This feature will be continued and strengthened, and in addition to these review courses there will be offered courses in physical and biological sciences, in art, music, child study, psychology and primary methods.

Three regular members of the Ellensburg faculty will be on duty in the summer session this year and they will be assisted by ex-County Superintendent W. D. Bay, and R. B. Kellogg, superintendent of the Centralia schools, who have been appointed members of the faculty for the summer session in recognition of their worth in building up a strong summer school in Centralia.
THE FACULTY.

W. E. WILSON, Principal.

E. J. KLEMME,
Psychology, Child Study, Theory and Art, American History.

A. H. MEHNER,
Physics, Physiology, Physical Geography.

CLARA MEISNER,
Primary Methods, Stories, Hand Work, Plays and Games.

R. B. KELLOGG,
Literature, Reading, Geography.

W. D. BAY,
Arithmetic, Grammar, State Manual.

EDYTHE HENRY,
Art and Handwork.

ADINA MALMSTEN,
Music.
THE COURSES OFFERED.

ENGLISH.

Course I. A course in general literature, authors and their works, for those preparing for first grade examination. Mr. Kellogg.

Course II. Grammar. The subject will be treated from the standpoint of both composition and technical grammar. It is intended to prepare for the teacher's examination and also to assist in the presentation of work to pupils. Different authorities will be considered, the work being taught by outlines. Mr. Bay.

HISTORY.

Course IV. A rapid review of the history of the United States, intended for those who expect to secure certificates by examination. Prof. Klemme.

ART AND HAND WORK—Miss Henry.

Course Ia or Ilia. Sketching of natural objects, still life, landscape composition, pencil, crayon, water colors. Two credits.

Course IIa. Elements of design and composition. Practical designs. Two credits.

Course V. A short course in basketry in raffia, reed and local materials. One credit.

MUSIC—Miss Malmsten.

Course Ia. Sight singing, ear training. Designed to cover requirements for teachers' examination.

Course II. Methods of primary teaching, rote singing, rhythm, melody. Beginning of sight singing.

Course III. Method and material. Problems through the grades.

PHYSICAL SCIENCE AND GEOGRAPHY—Prof. Mehner.

Course IIia. A review course in general physics, designed for candidates for first grade certificates by examination.

Course IIIb. A comprehensive study of physical geography with the view of qualifying candidates for first grade certificates by examination.

Course IVa. Commercial and industrial geography; or Course IVb. Method in geography. One credit.

Course Z. Physiology. Intended for those who are preparing for the teachers' examination.

MATHEMATICS—Mr. Bay.

Course Va. Arithmetic. A thorough review in all the essentials of the subject, the object being to prepare for the teachers' examination. Methods will be taught incidentally. Any good text may be used.

Course IIIa. Algebra. A general review course suitable as preparation for the examination for a first grade certificate. Two credits.

PSYCHOLOGY AND EDUCATION—Prof. Klemme.

Course I. Psychology. A study of Sabin's Common Sense Didactics, keeping in mind the application of the principles as well as preparation for teachers' examination.

Course II. Child Study. A study of Kirkpatrick's Fundamentals of Child Study, using other texts as supplementary. Two credits.

Course Z. Theory and Practice of Teaching. A study of the principles of teaching that will be of use to those preparing for the examination.

PRIMARY WORK—Miss Meisner.

Methods—

Course A. Methods of teaching reading, language, nature study, writing and number in the primary grades. Special emphasis will be placed on the teaching of these subjects to beginners.

Course V. Handwork. Instruction in many kinds of handwork suitable for primary grades, e.g., weaving, paper-folding, tearing, cutting, paper construction, etc. Attention will also be devoted to the consideration of many kinds of seatwork for the youngest children in rural and town schools where the teacher has little time to prepare and direct this work.

Course XIII. Plays and Games. A brief study of the educational value of plays and games. Directions for the playing of games of many kinds for both the schoolroom and playground. Playing of games by members of the class.

EXPENSES.

The registration fee is ten dollars, which will entitle students to re-register at Ellensburg, in September, without additional expense (except a library deposit of five dollars which will be returned to the student when he withdraws from school, or at the end of the term). There are, however, educational requirements to be met by students who enter the fall term at Ellensburg. At the Centralia summer session there are no such requirements and registration is open to all. The use of the building and equipment, including the library, gymnasium, and laboratories, and the services of the faculty will be free to registered students.

It is customary at the Ellensburg summer session to refund one-half of the ten dollar registration fee at the close of the term. Owing to the added expense of sending teachers and supplies over the moun-
tains, there will be no refund of registration fee at the Centralia session.

BOARD AND ROOM.

Plenty of homes will be thrown open to the students and the price for board and room ranges from $3.00 to $6.00 per week. Furnished rooms may be secured for $1.00 per week. Furnished light housekeeping rooms will also be available at very reasonable rates. Those wishing to reserve rooms in advance of their coming may do so by addressing Supt. R. B. Kellogg, at Centralia, who will be very glad to lend assistance toward getting all students comfortably located.

For special information address—

W. E. WILSON, Principal,
Ellensburg, Washington.

or

R. B. KELLOGG,
Centralia, Washington.
