Showing rows 1 - 7 of 7

Q5 - Is your research funded by a grant or grants?

#	Field	Minimum	Maximum	Mean	Std Deviation	Variance	Count
1	Is your research funded by a grant or grants?	1.00	2.00	1.74	0.44	0.19	69

#	Field	Choice Count
1	Yes	26.09% 18
2	No	73.91% 51

69

Showing rows 1 - 3 of 3

Q6 - Does the granting agency require a data management plan?

#	Field	Minimum	Maximum	Mean	Std Deviation	Variance	Count
1	Does the granting agency require a data management plan?	1.00	2.00	1.20	0.40	0.16	15

#	Field	Choice Count
1	Yes	80.00% 12
2	No	20.00% 3

15

Showing rows 1 - 3 of 3

Q7 - Are there any privacy concerns with your data?

#	Field	Minimum	Maximum	Mean	Std Deviation	Variance	Count
1	Are there any privacy concerns with your data?	1.00	2.00	1.72	0.45	0.20	69

#	Field	Choice Count
1	Yes	27.54% 19
2	No	72.46% 50

69

Showing rows 1 - 3 of 3

Q8 - What are the privacy concerns with your data?

What are the privacy concerns with your data?

i want it to be anonymous

Data included potentially identifying elements because of small numbers even if the data is anonymized

peoples identities

Protected populations

I use a mixed-methods approach to data collection and analysis that includes, archival work, document analysis, semi-structured interviews, focus groups, and oral histories. My research explores the socio-environmental and political economic implications of resource extraction for vulnerable indigenous communities in Latin America. To reduce the potential impacts to the research participants and as required by the IRB, I eliminate all the identifiers and keep all the data secured.

Do not want them shared

Human subjects; anonymity is needed

My concern is that some of the data I work with have personally identifiable information.

government regulations

Maintaining anonymity for IRB

Purchased from a data vendor, can't be shared without their approval. Also doing surveys and collecting personal information on incomes, socio-economic info.

As with all social and medical data, anonymity, safe storage of data.

zzz

Q9 - Have you received assistance on campus with any of the following research and data management areas? Check all that apply.

#	Field	Choice Count
1	Data management planning	12.82% 5
2	Data collection	15.38% 6
3	Data refinement/cleaning	5.13% 2
4	Data analysis	10.26% 4
5	Data documentation	2.56% 1
6	Data visualization	7.69% 3

#	Field	Choice Count
7	Finding existing datasets for data collection	12.82% 5
8	Finding an appropriate repository for long-term storage	12.82% 5
9	Meeting funder mandates	5.13% 2
10	Meeting publisher requirements	2.56% 1
11	Other	12.82% 5

Q27 - Do you have anything else you'd like to share with the libraries about research and data management services?

Do you have anything else you'd like to share with the libraries about rese...

This response is from Marty

I work from out of state, so am most interested in journal databases and ebook resources.

I don't think my answering the question about how often I would use the service is worded in a useful way for you. I would use it everytime I had a grant requiring data management plan, documenting and sharing of data. This would mean maybe one or two times per year.

The Library has not been successful in managing its own reference journal databases, successfully instruct students on how to find information, or adequately provide

It would be awesome if we had campus-wide resources for conducting research (e.g., NVivo; Text analytics software; MAXQDA; Dragon Professional; Otter; Verbit).

No

I don't believe the library should be involved in data analysis.

My science community is already developing data storage/retrieval systems. I would not want to store my data at a small university system that survives at the whims of an unstable budget.

Continued thanks to the library and CWU for support of databases, especially SciFinder and online journals of the American Chemical Society and of Elsevier

I need access to current literature to maintain relevance with my research. I can't get papers published without referencing the most recent literature from top journals

We need to get WRDS!

No

This is Jessica.
