REPORTS

President's report

President Garrity reported that the final Fall enrollment figure is 6,543 FTE. This is over the 6,000 figure that was in the budget for this year. The actual number of new students is in the category of transfers and is estimated to be 170 while we had 54 fewer freshmen. The administration is monitoring the situation closely and anticipates attaining the 6,000 figure on the annual average. The estimated Fall to Winter to Spring attrition rate is 7%. An analysis will be completed during Winter quarter and if unimproved, further action will be taken in the spring.

The President told the Board of the honor accorded Ronald J. Boles, Professor of Science Education and Biology and Director, Science Education Program. Professor Boles has been named the outstanding science educator of the year by the Washington Science Teachers Association, recognition which Dr. Garrity said is well-deserved and appreciated.

The performance by the CWU marching band in the Kingdome in Seattle at half-time in a recent Seahawks game was viewed by the largest crowd ever assembled there, including President Garrity who shared his pride in the group, the director, and the program it represents.

Another highlight of student activities was reported. The football team has secured a berth in the NAIA playoffs and will be playing in Ada, Oklahoma on December 1. It was the President's opinion that the team would represent Central well and with class.

Faculty Senate Chair Report

Faculty Senate Chair, Philip Backlund, told the Board that in the past three to four months the primary issue discussed in the Senate has to do with salaries. He said that the faculty as a whole is in agreement with the concept of merit. There is, however, widespread disagreement as to merit vs. market.

While it is realized that we do have to pay more for faculty in certain areas, there is still the aspect of equal pay for equal work, and the problem of professional growth and what happens to those who have reached the top of their range.

Professor Backlund expressed the feeling of unrest within the faculty over the whole salary issue and said the Senate certainly supports the 20% salary proposal previously discussed by the Board. He stated that salaries represent the single, most focal issue among the faculty.

Dr. Backlund reported that CWU faculty members are interested in doing what they can this year in joining with other faculties to present a unified voice in Olympia.

In response to questions from Board members, Chairman Backlund said with reference to the salary proposals to be presented to the Board by the administration at this meeting, the Senate concurs with the recommendations but only passed a motion to support the element which would bring the Library and Counseling faculty to parity with the teaching faculty.

Status of Reserves and Budget Changes

Vice President Courtney Jones pointed out that the most significant item on the report concerned the purchase of a third VAX.

President Garrity explained the student information system software which will improve record keeping and Central's data base for students. Implementation of the system will have a definite impact on the staff involved for they will have to carry on their regular work while they bring the new software to productivity.

Report on Capital Projects under \$100,000

The Board reviewed the report and Chairman Case asked for elaboration on the item concerning Bookstore Remodel.

William Ross, Director, Facilities Planning and Construction, explained that this proposal is for a set of drawings to be done to revise the floor plan of the Store, possibly adding 300 to 400 square feet, to provide better service to clients by achieving a more efficient layout for the departments.

Vice President for Academic Affairs

Vice President Harrington reported on activities in the Tri-Cities. Based on the decision of the Council of Presidents, we are moving into an integrated university center in the Tri-Cities, along with Eastern Washington University, the University of Washington and Washington State University. He reviewed the anticipated administration of the center and said that the aim is to offer more programs and greater opportunities for both undergraduate and graduate work for the citizens in the Tri-Cities.

Responding to Chairman Case's question regarding possible impact of the center on our FTE number, Dr. Harrington answered that those FTE's would not be charged against our base.

City Initiative Regarding Fire Department Funding

Vice President Courtney Jones reviewed the information sent to the Board relating to the request for increased funding for the City Fire Department for services to the university. Chairman Case said that Mayor Larry Nickel had requested that the City have a chance to speak at this meeting and he was honored to welcome the Mayor and other members of the City administration (including Council members Janiece Cook, Randolph Christopherson and Russ Stubbles, and City Manager Doug Williams).

Historical data on the subject was shared with the assembly and discussion relating to state and city budgetary concerns was heard.

MOTION NO. 5835: Dr. Tracy moved that the Board's position be as follows: We are concerned about a good level of fire protection in the City of Ellensburg. We recognize the City is telling us it is very difficult to maintain fire protection services given their ability to generate revenues. Since CWU is not in any way able to evaluate this, the university will cooperate with the city first to obtain an evaluation of the magnitude of increment which should come from the state to maintain adequate fire protection. Then the university officials will cooperate with the city in seeking budget action in the legislature which would provide an unspecified increment of funding through the appropriate budget vehicle other than the university budget. Central's role will be one of assisting the city in any way we can. Mr. Flores seconded the motion which carried.

Guy, Dean of Students, pointed out the proposed changes to the Constitution of the Associated Students of Central Washington University and introduced Jeff Morris of the ASC who was present to answer any questions from the Board. Faculty Professional Growth and Merit and January 1, 1985 Faculty Salary Scale

President Garrity presented the list of faculty recommended for professional growth and merit increases and for market adjustments. The President explained that though the figure of 6.7% is used as the total amount of increase, only 78% of the appropriation had been funded. The balance is to be included in the supplemental budget request. As a result, letters to eligible faculty and exempt persons regarding salary increases will include the qualifier that continuation of the increase will be subject to legislative action to provide the necessary supplemental appropriation to bring it to full funding.

Regarding the January 1, 1985 Faculty Salary Scale, the President said that the first order of business undertaken by the administration was to seek a recommendation from the Senate regarding the salary schedule as it applied to non-teaching faculty (Counseling and Library). The Senate recommendation, which is supported by the administration, was to bring those faculty members to parity with the teaching faculty. The balance allows a general scale adjustment of 3.4%.

The following motions were made, subject to adoption of a supplemental budget which will provide full funding for salary increases:

MOTION NO. 5851: Dr. Tracy moved, seconded by Mr. Hogan, to approve the recommendation for parity and salary scale increases and the January 1, 1985 Faculty Salary Schedule presented by the administration. Motion carried.

MOTION NO. 5854: Mr. Hogan moved, seconded by Mr. Flores, that effective January 1, 1985, graduate assistants receive a regular salary increase of 3.6%. Motion carried.
