MOTION NO. 08-17(Approved): APPROVAL OF MINUTES of December 3, 2008

Patrick Garmong – A new staff dining room in Sue Lombard is now open Monday – Thursday from 11:30 – 1:30. The dinning room is a full service style restaurant and is offering specials.

FACULTY ISSUES: Senator Donahoe expressed concern about new programs not being allowed to go through the curriculum process. The Education department has been working to develop new programs for math and science education. These programs are mandated by the state and are federally funded as well as other funding sources and have high priority in the state. Senator Donahoe also expressed concern about paperwork being slowed down and lost through the process. Senator Donahoe suggested that the Executive Committee look at streamlining the process and putting into policy deadlines of how long paperwork can be in any one office.

Chair Manweller clarified that the Executive Committee has not put a moratorium on creating programs. The four specializations and one minor that were sent to the Senate have been slowed down several weeks in order to address some issues and questions. Chair Manweller spoke to ADCO about his concerns of continuing to expand the curriculum when there may not be additional faculty lines to support them.

Senator Snedeker indicated that last year a number of senators came to him about the feeling of rubber stamping programs coming through Senate. The decision made last year was to ask for more information to be provided to the Senate so informed decisions could be made at the Senate. This process has been requested to be developed by the Curriculum Committee.

PRESIDENT: President Gaudino indicated his thanks for the opportunity to come to Central as President. He issued a public thank you of appreciation to President McIntyre. She is currently mentoring him and they have weekly phone calls scheduled. A transition team has been put together that are helping him address his learning curve. A lot of his time is being devoted to the legislative session and will be going to Olympia next week. He will be working on getting out and meeting with the academic units as soon as it is possible. Several philosophies and principles are being developed including protecting the core of the university. President Gaudino indicated that there will be transparency about decisions regarding potential budget cuts. There will be an open forum regarding the budget process on Thursday, January 15th from 1-3 in Hertz Auditorium.

PROVOST: Provost Quirk welcomed the President to the Senate. He urged everyone to come to the budget forum tomorrow and be part of the discussion. The Student Evaluation of Instruction ad hoc committee has been put together in conjunction with United Faculty of Central and Faculty Senate. The committee will be taking a hard look at the current tools as well as the validity and reliability of the instrument. The members of the committee are Jeff Snedeker, Michael Braunstein, Tom Wellock, Corwin King, Caitlin Baldwin, Derrick Peacock, Connie Lambert and Tracy Pellett. The instruments will be vetted through the appropriate venues and hope to have something to review by the end of the academic year. Provost Quirk announced the Kirk Johnson will remain as the Dean of the College of the Sciences, effective immediately. The Provost is currently working on post tenure review files over the next four weeks.

Exhibit A

Motion No. 08-13: Goal 4: To appreciate and give expression to beauty and truth through the arts.

Rationale: Aesthetic experience is fundamental to human existence; interacting with art allows us to construct meaning through the senses and the imagination. We study the arts to understand, interrogate and/or engage in the creative process and to explore the connections between art, culture and history.

   Students will be able to:
   1. Create meaning through the analysis of or by participating in imaginative/artistic production
   2. Interpret aesthetic experiences and expressions within their historical, artistic, and cultural traditions
   3. Recognize and/or apply techniques or forms used to create aesthetic meaning in at least one art form.

Motion No. 08-14: Goal 5: To analyze and critique historical and contemporary accounts of human experience.

Rationale: Through the humanities, we develop a sense of continuity, change, empathy, and personal ethics. We study the humanities to observe how individuals and societies have articulated and acted on their most profound ideas. Through historical and contemporary sources, the humanities reveal the complex interactions between ideas, individuals and societies.

   Students will be able to:
   1. examine ways in which beliefs and values affect interpretations of experience and events
   2. analyze works of literature and the humanities as expressions of individual and human experience within historical and social contexts.
   3. apply critical and analytical approaches typical of the humanities to formulate, justify, and evaluate substantive claims.
Motion No. 08-19:
