GRISDELSTERS PREPARE FOR FROSH TILTO. 17

TRAVEL CENTER OPENS AT SELAH; SEE MISr FOWLER

FIFTEEN STUDENTS AT A TIME WILL GET PRACTICE TEACHING

In order that there will not be an insufficient number of teachers in the Eddie son school, there has been a new training center provided for the schools at Selah, Yakima coun-

try. At Selah there are six separate buildings, each having six teachers, one teacher having two and one teacher having one class. The buildings will take care of a room in which he will observe and later act as a teacher for a period of six weeks. This affords the oppor-

tunity for each teacher to have an opportuni-

ty of a typical school room for that period.

Room and board will be approxi-

mately the same as here. Each cadet

will be able to bring his own furniture and look out into the court separ-

ately from the Kannon and car-

auditorium.

LOCATED IN COURT NEAR THE FRANKLIN CAN ACCOMMADATE OVER 50 STUDENTS.

Among the various changes made in the new training center, one is the instal-

lation of the boys dining room in Kamola hall. It is situated near the infirmary and is part of the dormitory.

The boys dining room is one of the most artistic spots in Kamola hall. The color scheme is black, blue and orange. The tables and chairs are black, blue and orange and gay curtains of orange and black hang from the windows.

The tables are all prepared in the central kitchen of Kamola and carried into the dining room by the cooks who serve the meals. The boys then eat from the cold hour of eight in the morning until five in the afternoon.

Volleyball should be second in pop-

ularity with a class of 49. This class meets five in the gymnasium and it is under the direction of three student coaches.

Miss Roberts will take care of all the cadets, carry on games of hockey and baseball, coach the girls in playing tennis, and coach the boys in playing basketball.

The girls are all playing basketball and interested in all the sports.

Mr. Black has explained in an interview for the Student Opinon, that the red is only a matter of personal opinion, that the red is only a

EDITORIAL

Why did you come to the State Normal school at Ellensburg? To have a good time? You might much better have gone to some popular amusement resort. To spend all of your time in study? You might better confine yourself within the walls of a monastery or a convent. Our life here is too varied for you. Or did you come here to learn how to live, to learn how to be a good public servant, to develop all of your talents as far as possible, so that you may be of the greatest possible service to your fellow men throughout all your life, of which your present six years will be only a small part? If you have come for this last reason you have chosen well, for it is the aim of the Ellensburg Normal to aid all who enter its doors to become well-rounded, active citizens of the highest types, capable of holding responsible positions in the world.

The Student Opinion is your paper. It is published by the students and in the interests of the students. This paper, the same as any other paper, could not exist without some source of income. You, the students of the Normal, are primarily the only source of income for the paper. There are two immediate sources from which finances for the publication of the Student Opinion are derived. The first is from the subscription price which is included in your registration fee. That you pay directly. The second is from the income from advertising. That, also, you pay. The business manager of the Ellensburg Normal does not advertise in the Student Opinion just for the sake of the help of the paper. We have no right to ask for such charity. They expect, and have every right to expect, value received for the money expended. If their advertising does not produce the business they will stop advertising when and if they do so one of the chief supports of this, your paper, has been cut off.

It is, therefore, up to you, each and everyone of you, to patronize those firms who advertise in your paper. Every one of them merit your patronage. They are all reliable firms or else they would not be granted space in the Student Opinion.

Smiles

Mary B.—"I hear she broke her engagement."
Carp.—"Yes, but she broke him first.

Focusion of the Charleston. Dance as you'd be danced by.
It's never too late to bend.

A bird in the hand is worth two in the dancing academy.
One good turn deserves an encore.
Youth will be served.
A step in time is always超過able.

"HOW TO STUDY"

The Students' Hand-Book of Practical Hints on the Technique of Effective Study

By WILLIAM ALLAN BROOKS

A GUIDE outlining the hundred of practical hints on the art of learning to assist students in securing MAXIMUM SCHOLASTIC RESULTS at a minimum cost of time, energy and effort.

Some study methods and results are described and others are explained to show particulars of the author's method and other methods. There is a section on practical hints and other hints for study, which are given throughout the book.

Some of the many valuable hints are: How toStudy, the Advantages and Disadvantages of the Scientific Method, the Cheater's Methods, the Magic Fractions, the Study Book, and many others.

SOME OF THE TOPICS COVERED

Scientific Shortcuts in Effective Study
Polytechnics for Examinations
Trouble with Good Examinations
Habits that Help or Hurt in Relation to Study
Study Behavior
How to Take Lecture and Reading Notes
Advantages and Disadvantages of Automatic Writing
How to Develop an Interest in Reading

WHERE YOU NEED THIS GUIDE

"It is in this work that you will find guides and direct paths to the work points in the whole educational machinery. Prof. G. W. Whipple, U. C. of Michigan.

"The students today in college do not seem to be very happy. Most of them, especially the athletes are overworked." Prof. H. H. C phy. France.

"The students who have ever heard "How to Study," work in every college, and based on scientific facts and intelligent study habits, it is a most essential study book." Prof. A. D. H. Harvard.

"This study book will help you study. This book will show you how to avoid all mindless effort. Get a good start and make this year a highly successful one by sending for the pocket edition of "How to Study.""

The Student Opinion

Normal from June, 1922, to August, 1929. Miss2nnie Hall substituted for her during the past year.

Miss Katharine Prunak is the school nurse this year.

George Beck is assistant in the science department and will organize an orchestra.

New teachers in the training department are Lillian Blooming, room teacher, fourth grade; and Helen Boyle, room teacher, second grade.

"Dance as you'd be a bird in the hand is worth two in almost impossible.
A step in time is almost impossible.
A step in time is almost impossible.
A step in time is almost impossible.
A step in time is almost impossible.
The Delta Phi Phi held its first meeting Wednesday evening, October 7, for the fall quarter. Plans were made for a picnic dinner, a dramatic club, and other institutions of higher learning throughout the United States. The Newman club was organized here just last year. The organization takes its name from Cardinal John Henry Newman, great religious leader, first in the church of England, then in the Roman Catholic church, who was always deeply interested in education.

MISS GRUPE GIVES SERIES OF LECTURES

Miss Grupe, the well known ppy, choisey teacher, started a series of lectures last Friday morning, which she is delivering to the Social Science classes of Mr. Snyder, Mr. Holmes, and Miss Howard. Her subject for these lectures is "Helps for Effective Study." She divided this subject into two parts, namely: "How to Study Effectively." It is her purpose to teach the groups that throng your writing desk every morning, how to study, and what to use, to make your study effective.

THE STUDENT OPINION
Page Three
No predictions can be made as to the results of the game with the University Preps, but it is a certainty that it will be a hard bat­
tle, and will test the mettle of all the new men. A victory for the Wildcats would prove that the Nor­
mal is in championship form.

NEW LIBRARY BUILDING HEARING COMPLETION

(Continued on page four)

slice of sunshine to harmonize with the large pillars at the front of the building.

The workmen at present are con­
structing the interior cupola, which operation has provided a great deal of interest for observers, of which there have been many. The classes in industrial arts have witnessed this feature of the work as part of their class work. It has also been the occasion of visits by Commis­
sion from the training school as well as by many others.

The forms are made of plaster paris over a plaster model, which is to be used in making a cast form. This is placed inside of the plaster packs from which the removal of the finished casts of plaster, reinforced with hemp fiber, is made which is made within this form.

The crew which is to do the in­
terior marble work is expected to arrived ready to begin work on Mon­
day. The floors of the entry will be the main reading room, and the stack room, and a five foot wide walk­
way in the entry way are all to be marble. The walls, which are entirely of metal, in line with the general fireproof construction of the entire building, have arrived and will be put in place as soon as

the floor of the stock room is com­
pleted.

The lighting fixtures are to be very beautiful. The lighting of the main reading room will be a combination of direct and indirect illumination. A lantern of tinfoil and green copper will be placed on either sides of the main entrance and instead of similar design will hang between the columns in the period.

The contract calls for the occu­
pancy of the building by the be­
gnning of the winter quarter, which starts soon after the first of the year, but at the present rate of construction it may be occupied soon after Thanksgiving.

According to President Black, ex­
tensive changes are to be made in the arrangement of walks and shrubbery on the campus. Concrete is being laid for a new walk ex­
tending from the front of the new building straight out to Eighth St.

A new arrangement of the walks on the north campus will be made early in the spring, featuring a large gateway facing Ninth street. Potentials of red brick, surmounted with lights, will also be placed at the end of the new walk on Eighth street.

"He's so dumb he calls his girl Pestscript becomes her name in Ad­
dition."
