Students Occupy New Dormitories

The beginning of the winter quarter marked the occupancy of the new dormitories for the students who returned early to move into their new rooms. The freshmen and upperclassmen were the first to occupy the new dormitories. The men's residence will accommodate 336 men. About 20 men are rooming there at present. Each man is assigned two separate rooms, one for a study and one for a closet. There are eight men to a suite of rooms, but as soon as the building is paid for there will be only four men to a suite. The beds are made of polished mahogany. Each man is furnished with his own desk, two oak chairs, a mahogany and a pine table. The study rooms are furnished with a desk, four chairs, a mahogany and pine table. The dormitories are aimed at a green and brick look material. The floors, throughout the dormitories, will be finished in a concrete harder style.

Miss Lombard Hall will accommodate 430 women. There are ten single, double and suite rooms. One room is furnished with a study table, a sofa, a mahogany and a pine table. The floors are long mirror and running water. The furniture is gray and black. The bed spreads are gray, green or gray, striping, trimmings to match the spreads. On the opposite side of the dormitory is the room and social room. Miss Skinnier is in charge of these rooms. The brick room is furnished in pine given to match the brick. The girls will have their own lamps. The girls will involve their calls through the brick room.

The Student Opinion

The idea of an honor society to include outstanding students in the college community and scholarship is not a new one. Many of the better colleges and schools have such organizations which have been working commendably for several years.

Even schools smaller in enrollment than W. N. S. N. have these honoraries. Surely we can do as well, if not better, than some of these institutions. What about it fellow students? Would it not be fair and reasonable for you and the other students who have these honoraries to give your time and effort to these organizations? It will be a great honor to be eligible to this society, the number of members which should be appropriate, a suitable name, articles to be embodied in the constitution of such an organization and other matters pertaining to an honorary club.

It will be an honor for W. N. S. N. if such an organization is founded here and later expands into the other norms of the state. Perhaps in a few years it might even be made a national society, with Ellensburg Normal as the birthplace, What about it?

We have not heard the latest! No that isn't true. Gee, but you sure are dumb. How come you don't know the newest scandal? You always tend to.

FILL THE BOX

"Little drops of water, Little grains of sand Make the mighty ocean, Well, the pleasant land."

These words of the poet might be parodied to read:

Little bits of news notes, Don't you think this Harmon Hut and the pleasant land.

We want this paper to be of interest to you and we want you to help us reach that goal.

We have not heard the latest! No that isn't true. Gee, but you sure are dumb. How come you don't know the newest scandal? You always tend to.

SOS

Have you noticed the flock of new mustaches on the campus? Of course they are not very noticeable as yet because some of the boys are just a wee bit slow and don't realize the care that must be taken of an impressionable mustache. You know fellows no matter how hard a man tries he can't grow as mustache as he like in that way.

SOS

WHAT DO YOU THINK OF THE LATEST DANCE STEPS, AS EMBRITED BY SOME OF THE STUDENTS RETURN FROM VACATION: VACATION DID A LOT OF GOOD IN A LOT OF LINES, WE REFRESHED THE ROCK OF HANKIES WHILE WE WERE AT HOME.

The Student Opinions

Will, hello old timer, how am you anyhow? Did we have a good vacation? Don't you think this Harmon Hut is in name here? The front door is especially appropriate we believe.

Now, at the beginning of the term we've been working for recreation as well as study or work. It will be an honor for W. N. S. N. to have such an organization here and later expands into the other norms of the state. Once again

We will have to make a fair trial you students would only give it a fair trial you would know that a budget system for both time and money is a really profitable plan. Now, at the beginning of the quarter, is the logical time to start adhering to such a system.

It won't be long before a lot of us will be bewailing the fact that we haven't kept our notebooks up to date or that a certain text is not outlined. It has been conclusively proven by experience that twice as much work can be accomplished in the same amount of time if a budget system is used. The plan is surely worth a trial, isn't it? It is true that the time you could save in such a trial would be more time for recreation as well as study or work.

Are there any of us who have more money to spend than we need? There is where the budget will help again. You are allowed a certain amount of money. You know it should last a certain time. Figure out how much you should spend for the various necessities. Don't forget to put aside an emergency or miscellaneous fund. You will find that you will come out ahead if you stick to your financial budget. You will probably have enough left over to buy some little luxury that otherwise you would not have had.

Making the Budget Do!

Now that the holidays are over, the question is, "What clothes to buy and where the money is coming from?" But before buying new clothes, you should be sure to look over last year's clothing, for no doubt many garments can be cleaned and worn again.

When you go to the LA NOBBA Barber Shop you will be assured that the barber TOOLS are clean and sanitary.

Mrs. West wishes to emphasize the fact that in the two years she has managed a barber shop in Ellensburg she has not come in contact with a single case of infectious disease nor has she attempted to treat at any time or any place a single case of contagious disease because she believes in safe-guarding the majority.

Infirmary moved to New Dormitory

The infirmary, formerly in the basement of Kamola hall, was moved to Sue Leonard hall with the opening of the new dormitory. The new infirmary is large enough to care for 10 to 14 students. It contains kitchen, dining room, laboratory, where mi-

croscopic examination is done, a conference room and an isolation room, which will accommodate two. The isolation room has an outside entrance and can be closed off from the rest of the infirmary. It is not completely furnished yet, but will be soon.

The infirmary is under the super-

vision of Miss Alice Wilsman, women's health director. Mr. Harold Quigley, men's health director and Miss Katherine Prosser, the school nurse.

Student Opinion

I believe that this question is in

the minds of most of the men stud-

ents of the school, so I am putting it 
squarely before the school by this mean-

ing.

The postoffice is for the use of ev-

ery student in school.

The other day there appeared a little notice on one of the doors lead-

ing into the postoffice stating that that particular door was exclusively for men. Good enough, we don't object to that. But why this hall which only door left unlocked? We are willing to use the other door if it is left open. We have mail in the postoffice too, and we would like to be able to get it. If the store happens to be closed, we can't get it. I personally know of several cases of violation of this rule, for the simple reason that the door was locked. Why leave that door unlocked at least from 8 to 7 every day? I am sure that many students would try to break into the store between those hours. There would be too many students about. Isn't this a reasonable request?

Student Teachers Schedule Changed

A new feature in the program of student teachers at the training school in

the two hour period, required of all practice teachers there this quar-
ter. One hour of this period will

be spent in the regular teaching as forerunner, and the extra hour will be

occupied with preparation of lesson plans, discussions, group conferences
and the like.

It is hoped by this new method of

approach, the excessive amount of

outside work the student teachers have done heretofore will be done away
with. This may also give stude-
tants a better chance to under-

stand the principles so necessary for successful teachers to fully com-

prehend.
