Midsummer Night's Dream is the basis for the Dance Drama this year, which is being put on in front of Kamola Hall. The show will be directed by Miss Elizabeth Allen. The girls of the Natural Dancing class will also have expended much time, thought and work on the drama. They are trying to take the fair and work on the dream they were given to do.

The Wildcats have been invited to compete in the Northwest Conference Class A races at the University of Washington Relay Carnival to be held in Seattle April 28. The events open for the men are the 100-yard dash, the medley relay and the mile relay.

At present Coach Quigley is concentrating his efforts to develop a high school track team in anticipation of this forthcoming event in track and field.

The Tri-Normal track meet will be held in Bellingham May 21. The meet in the ultimate aim of those turning out and in realization of the keen competition that is inevitable to make the team.

Those turning out who have had some experience are Wachtman, Tacoma half-miler; Hauts, sprinter; and Potts, branford sprinter; Stromberg, the "Flying Fins," from Seattle, a two-turnout sprinter; Murphy, Bellingham High school star, half-miler; Grant, Everett; Leach, the sprinter; and Quigley, with a long great form as a half-miler. Peters, of Wenatche, is out for sprints. Soppi, last year's leiserman, is doing fine as a two-sailer. "Tiny" Thelma Peeples, Kenneth Miller and Jerry Ozretich are doing well in the hurdles, and the back men are "on the ball."

As a result of the two tryouts held so far, Mr. Quigley has nothing to say as to who he will take to Seattle yet, because most of the members are still at the beginning of their training. The 100-yard dash race that was very close and no man is sure of making the Seattle trip.

The Sophomore dance which is to be given May 29 in the gymnasium is being looked forward to by all members of this class. The dance will be given to raise money for the gold footballs which were given to the winning football team.

Social Commissioneer Ruth Bill is being assisted in the carrying out of the affair by Bill McRae, treasurer, and Mrs. William Miller, chairman of the committee. The funds raised will be used to purchase the four-year teachers' college. "Ten or fifteen dollars for the trip, Mrs. Leach will be pleased to place the shoes and sandals they are prepared to take with them for $15.00.

During the intermission a musical program will provide entertainment. Stanford Beck has organized to give several solos and Peggy Bottor and Bill Blakeman will give duets.

Dance will start at 8:30 and continue until 11:00.

TENTATIVE CALENDAR
Wednesday, April 27-Glenn Hughes, Thursday, April 28-Glenn Hughes, Friday, April 29—Sophomore Dance.

Tuesday, May 3—Campus Day. Thursday, May 5—Freshman Freile. Monday or Tuesday, May 16 or 17—Dance Drama.

Saturday, May 21—Tri-Normal Track Meet.

Tuesday, May 26—(tent.) Commercial Club Picnic.

Saturday, May 28—Alumni Day.

Monday, May 28—Chukchitak. Tuesday, May 31—Senior Class Day.

Friday, June 2—Commencement.

CAMPUS DAY SET FOR TUESDAY MAY 30

Committees-appointed by President; Day to Be Spent on Cleaning Athletic Field.

Committee appointed by President; Day to Be Spent on Cleaning Athletic Field.

Get out your rakes and hoes, and put out your very old reasons because May 3rd has set for Campus Day! It is the one day of the year when the students may be found on the athletic field taking down all the old fences and buildings. The girls will probably be asked to help plant shrubbery, flowers, etc. A dance will be given on the same field.

Vigilance Committee—Fred Allsop, Harold Morgan, Warren Royce, H. W. Wright, and Fred Rahmen. Other committees are too large for this space.

The party divided into two groups. The first went on to camp and saw the Indian petrels on the rocks. The second group went to steamboat Rock and saw the deep blue waves rolling in the dark rocks which were made by the glacier. After lunch the entire party was busily working and these flowers were set up. A copy printed another thrill.

Past Steamboat Rock to the Columbia River and back to the foothills — and the students dug fossilized clams in the old sea bottom!

Camp was made at the foot of Steamboat Rock near the Steamboat Rock, a lava formation two miles long, one mile wide and 900 feet high. The sanctuary was spent with a camp fire and old-fashioned dances which were made possible by the absence of private life and victoria.

Papers were read at 5 o'clock Sunday morning. By 7 o'clock the Steamboat Rock climb was begun. Several rufflers were killed on the climb and students were warned not to touch any of the sacred sacredly damaged. A cypode added another thrill.

The Sophomore pageant was then put on by way of Soak Lake.
to domestic sympathy, I feared tears. "I didn't have to go to school for a month. I ate in bed and had the swellest books to read."

Science Club Sees Quer Phenomena

The last meeting of the Science club was the occasion of a record attendance. This may partly be explained by the fact that a very unusual program was given that evening. The mysterious Curly Glenn and versatile Hugh Smyzer made a plea for more personal acquaintance between students of the East and Western ideas among peoples of the East. These juvenile savants performed a series of highly spectacular and ingenious experiments. Hugh shockingly amused the group with several electrical stunts, while Curly, working in the field of chemistry, kept everybody extremely nervous and jumpy by his uncanny behavior.

Vista Men's Home at Seattle}

"I don't have to go to school for a month. I eat in bed and had the swellest books to read."
OUTWARD BOUND

Fascinating, exceedingly human, and very splendidly acted is the only way to describe the Moroni Olson production, "OUTWARD BOUND." The play alone was unusually well written and it has much enhanced by the superb acting of the cast. The Moroni Olson players are always well equipped with generous appreciation whenever they appear.

"OUTWARD BOUND" by Sutton Vass is a play of three acts with the same scene throughout. It takes life in its main theme. The action of the play takes place on the outwarrd bound vessel lying in a calm sea in Heaven and Hell. A queer assortment of characters have been assembled: a drunkard, a preacher, an eminent character, etc., that as much enhanced by the superbly fine repertoire of plays. The cast have made the most famous players of the cast.

The major part of the material necessary for publication of this edition will be left to Peggy Eastman, Elmer Barker, Roy Byrnes, James Mullen, and Roswell Woods, the twenty-six members of the club. Their assignments include Kamala, Sue Lombardi and the men's department.
