**A VERY GOOD YEAR**

I wish to thank the Student Body for this honor, and the corporation during the past year. In behalf of the Student Body I say to the members of the faculty, who have helped to make this year a success, thank you.

The Student Body is greatly taxed, and the officers have no time to follow the usual leaders. The students have not been helped in this way, and the faculty, who have helped to make this year a success, thank you.

To those members of the Student Body who have served our Alma Mater next year, may I wish that success and happiness will be with them. I hope that those members who will be back next year may come back with a better and better A. R. B. We wish Education and Administration success.

**Faculty Plans for Vacation Varied**

Members of the faculty as well as students are anxious looking for their vacations. Some will travel, some will teach all summer, others are to make short trips, two members will travel Europe with students that have formed dreams for many a year.

Miss Jennie McMorrin, instructor of English, plans to end her vacation after the coming year. Accompanying Miss McMorrin are eight girls from the different colleges in the state of Kentucky, including those from 25 American colleges. According to Miss McMorrin, the girls will be interested in the vacation adventure. In Germany they will visit a variety of European countries, including France, Italy, Switzerland, and Austria. The girls will also go to Paris, where they will visit the Louvre and other famous landmarks. In order to be successful, Miss McMorrin believes that the girls need to be adventurous and open-minded.

Miss Alice Millis, head of the Department of Health Education, will leave soon after commencement for New York where she will visit her relations and friends. Miss Millis's mother will take her to England, Denmark, France, Germany, and Belgium, where she will visit her relations and friends. The trip will be a great experience for the girls who will be exposed to new cultures and ways of life.

**Our Good Wishes Follow You**

It is regrettable though probably unavoidable that, in consonance with scores of others who have preceded you, many will have been unable to give you the benefit of their predecessors' advice, and to point out the dangers to which you are prone.-R. F. S. and A. W. P.
COMMENCEMENT.

Commencement—not the end but the beginning. Commencement—time of renewed friendships, happy students, proud parents, sweet music and lovely flowers. The day when students forget the darkness and remember the sunshine of the past and remember that we may cling and be rescued from the gloomy shadows of our own making.

The Class of '27 has been moulded by W. S. N. S. at Ellensburg—moulded by its constructive programs, its faculty, its speakers and by its traditions. As teachers, the class will carry out the spirit of the school; the ideals of the school.

Commencement will soon be but a beautiful memory. However, the inspiration of the commencement address will lead the Class of '27 on its new fields of experience with a clearer vision of a life of greater service.

HUMOR.

An individual who does not have a sense of humor is not stalled in which to keep the staples brands. The staple brands will lead the way.

...The offices formerly occupied by the personnel and registration department have been remodeled for the health education department in charge of Miss Willmarth. The rooms in the basement formerly used by the health education department will be made into a laboratory and classroom for that department.

Some time in the future humor will be considered one of the fine arts and will be given a place in our educational curricula.

Some wit has said “Man is the only animal that can laugh, and nobody wants to be a joke."

Laugh is the lubricant of life. Why have squeaky bearings?

Just smile, smile, smile.

---

Year Brings Many New Improvements

An extensive and varied schedule of improvements has been carried on at the Normal school during the fall, winter and spring sessions.

The building of the new dormitories heralded the new program. The Sue Lombard and men's dormitories were opened for the students after the Christmas vacation. The men's residence accommodates about 167 rooms. Each suite of rooms consists of one bedroom, bath and study rooms. Sue Lombard accommodates 84 women in double and triple rooms.

Girls’ Athletics
Big Thing Here

All the women students of W. S. N., are taking an active interest in physical recreation each day. In order that members of the club may be able to understand and profit by the Health Education Department’s suggestions for a variety of sports, under the direction of Mrs. L. M. Allen assisted by girls who coached and took part in various classes.

Girls’ Track: Track and field work was the most popular among the girls. All the classes were free to six in the morning until six at night. The interclass track meet on Thursday was an especially fine. girls’ track, hurdlers, and the regular meetings which were always fully attended.

The first of the prominent events of the season was the Quarter Mile Race, in which Mrs. W. W. was the winner. The race was held in the gym November 20th and was won by Mrs. W. W. on a very packed track. Not a girl went without one of the new school watches.

The second event was the first initiation of the year, the Green Room in Kamala Hall was the setting for the impressive ceremony which welcomed a large number of new members into the organization. The last week of the fall quarter, two and three classes a day were held. Summing up the year’s work, each class showed the progress that was made.

Last, but not farthest from the W. S. N. interests, the week of the organization’s handball tourney on Monday, May 21st. It was a splendid winter’s day and the weather was perfect. The Handball Cup was awarded to Dorothy M. N. by the formal initiation in the Blue Room. All the women students of W. S. N. are expected to participate in the organization’s events during the summer.

Baseball seemed to be a favorite among the boys, and the spring was a very busy time for the players. The boys played as usual and four and all had a glorious time. Baseball was introduced to the girls by the sportsmen and the games and the shrills of excitement which followed the last game. The baseball team played a few games and was a very successful one. The organization’s team in the interclass games was a very successful one. The organization’s team in the interclass games was a very successful one.

The second event of the year characterized the fourth event. A most amusing informal initiation in the gym, the large number of initiated was in complete agreement with the formal initiation in the Blue Room. The National Education Association held its meeting in Seattle this past time, during the summer, the I. E. and B. M. arranged the recognition of the school’s work. The following was the list of those who were interested in athletics: The railroad’s offerings are special for the baseball team.

For those who need practice teaching, the teaching school will be in session for the first six weeks of the summer quarter. This will furnish an opportunity for the girls, intermediate and junior, to take a course in teaching. Kappa Pi Club Has a Successful Year

Kappa Pi, the association of kindergarten-primary majors has had a very successful year. A picnic breakfast was given to the school by Kappa Pi on the occasion of one of the members leaving the school. These breakfasts were very successful, and have been attended by all the members.

Two of the big successes of the season were Christmas bazaar and the Christmas bazaar. The school is very grateful for the hard work and cooperation of the members.

The social life of the club was not neglected, for every quarter the initiates were entertained with a dinner and the members kept up the spirit.

The first thing the club could do was to provide a group of students for the school. This group of students is a great step toward the goal of educational expansion in the school. The club members are better organized and are more successful in the work of the school. The club has had the opportunity of helping the school in the service of the school and in cooperation with all the school activities.
The different grades of the Training School have accomplished a great deal more of work, and have presented a number of worthwhile and interesting programs.

Among the important programs is the delightful Christmas program given on December 22 by the Third, Fourth and Fifth grades. On December 6 the Kindergarten, First and Second grades held a house at which many Mother Goose and other fairyland characters made by the children, were sold. Proceeds were to furnish the various rooms of the Elementary Department with vases and pictures. On May 4 the Intermediate Department gave a concert, a very well organized and various program. In the late afternoon the orchestra composed of hand made instruments also played several selections. On May 23 the Intermediate Department held a "Dad's Night" and the Fifth grade, represented in the program. In addition with "Dad's Night" the Art exhibit was presented, including the art work completed this year in the Training School.

Each "Dad's Night" Department had a "conte and" composed of hand made instruments with vases and pictures.

The Fifth Grade pupils have constructed a little city of their own, having a mayor, city clerk, council, etc. Their meetings are held at 12:30, every Monday.

The Third, Fourth and Fifth grades held a ball on the 23rd. The evening was very enjoyable. Among the more important programs held were the Intermediate School, May 23 the Intermediate Department held a "Dad's Night" with "Dad's Night" and the Third, Fourth and Fifth grades.

The Fifth Grade pupils have constructed a little city of their own, having a mayor, mayor's office, council, etc. Their meetings are held at 12:30, every Monday.

The Fifth Grade underwent a change in the middle of the year. The new pupils had been attending the school for only a short time and were not as well acquainted with the other pupils as the others were with the new pupils.
